Web Grid

Publish Content Manager Lists and
Documents via the Web
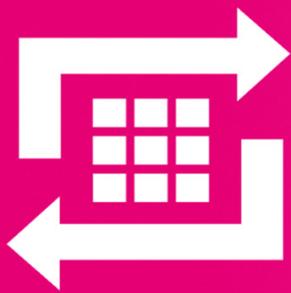

Web Grid

Easy. Secure. Online.

Publish dynamic lists of Content Manager (CM) records on the internet, intranet and SharePoint® web pages. Easily download electronic documents from the Web Grid list via the internet. Securely manage which records are published using common CM security and access controls with the option to apply additional security to meet organisational requirements.

Key Features

- View CM documents from the internet, intranet or SharePoint® sites
- Display multiple CM Metadata Fields in Web Grid lists
- Filter information within Web Grid lists using Metadata Fields
- Customise look and feel to match existing internet, intranet or SharePoint® styles
- Control information shown in Web Grid lists
- Publish multiple Web Grid lists on a single web page
